

Qu'avez vous fait ?

Paroles et Musique : Claude Noah

You condemned me
Without even a glance
You condemned me
It's your bulwark

You condemned me
Without even a glance
You condemned me
It's your bulwark

Doubt fades away
Even before it arises
Certainty replaces
What we failed to see
And silence screams

Within the gray walls
Words are lost
Show me the proof
Not your suspicions
The truth remains silent

You condemned me
Without even a glance
You condemned me
It's your bulwark

You condemned me
Without even a glance
You condemned me
It's your bulwark

Weigh the facts
Listen to the silence
Doubt again
It's your freedom
Find yourself

Qu'avez vous fait ?

Paroles et Musique : Claude Noah

You judged me
Without knowing me
But in your doubting eyes
There is also light
We can change

You condemned me
Without even a glance
You condemned me
It's your bulwark

You condemned me
Without even a glance
You condemned me
It's your bulwark

You condemned me
Without even a glance
You condemned me
It's your bulwark

Vous m'avez condamné.....

Vous m'avez condamné.....
