

How to tell you

Paroles et musique : Claude Noah

How can I tell you, I love you so deep
The words often fail but my heart takes the lead
Like a star that shines bright in the depths of my soul
Your love fills the air, it makes me feel whole

Your smile, I find the sweetest comfort
Your sparkling eyes, oh, they're my treasure's report
When you look at me, the world stands still
In your warm embrace, I find my peace, my will

How can I tell you, I love you, it's true
Words can't express all the feelings for you
I know that my love is an infinite sea
And I'll be right here through every heartbeat

You're the sunlight that brightens my days
The glow that fades all my cloudy grays
With you by my side, I'm ready to fight
Our love is a fire, burning ever so bright

Each moment with you is a sweet embrace
A melody softly played, a timeless grace
So let me show you just how much you mean
That our love grows stronger, forever unseen

How can I tell you, I love you, it's true
Words can't express all the feelings for you
I know that my love is an infinite sea
And I'll be right here through every heartbeat

Every second spent with you feels like a dream
An anthem for lovers, in this endless theme
So let me take your hand and let our hearts collide
In this dance of affection, let love be our guide

I promise to cherish each laugh and each tear
With you my darling, there's nothing to fear
How can I tell you, I love you, it's true
Words can't express all the feelings for you

I know that my love is an infinite sea
And I'll be right here through every heartbeat
So how can I tell you, just take my heart's vow
In this journey of love, let's navigate now

How to tell you

Paroles et musique : Claude Noah

With every heartache
So how can I tell you, just take my heart's vow
In this journey of love, let's navigate
